

Innovative Services

Innovative Services is a job shop that offers old time quality and service. We are a general industrial machine shop that specializes in one-offs to low volume production, but also can repair, remake, and alter your existing parts. Innovative Services can duplicate obsolete parts and do that faster than the original equipment manufacturer.

Services include but are not limited to:

- **General Machining**
- **Turning, Milling, Boring**
- **Drilling, Tapping, Threading**
- **Welding**
- **Fabrication**
- **Abrasive (Sand) Blasting**

If you think there is a service we could provide you, please don't hesitate to call. We look forward to hearing from you!
